| |0 of 0 people found the following review helpful.| Essential for any Biologist | By R-V S. |I'm a fourth year biology student. This book is great supplemental to my modern text. Information is still important today. Beautiful illustrations, great book.

Excerpt from A Textbook of Botany for Colleges

This book is written in recognition of the fact that to nearly all college students an introductory course in Botany is part of a general education, and not a preparation for a professional botanical career. The distinction is important because our existent courses are largely adapted, even though unconsciously on our part, to the latter end. The needs in the two cases are not the same, though the difference is less i
